Department of B.Sc.(I.T.)

A seminar on Open Source Technologies" .. was organized by an Foslipy Initiative to create awareness in students about the open source technology on 12th Aug 2017 at 11.00 am.. Open source technology is production and development philosophy of allowing end users and developers to not only see the source code of software, but modify it as well.

The future of open source in the country is bright, backed by the Indian government's Digital India initiative and the announcement of its Open Source Policy. .

The speaker, Ms Sayali Yewale said, " India is no longer just a nation of diverse cultures and languages, but has also become a huge market for software and various technology offerings – ranging from operating systems and productivity tools, to desktop servers and cloud solutions."

Ms Sayali Yewale and team held an interactive session on Open source technology and digital India"

The detail discussion was held on the various career opportunities available in the field of Open Source technology and how it can also opens up the way for entrepreneurship

All the participants seemed to enjoy and benefit from madam. I am sure Ms Sayali Yewale added changed vision of our students with the respect to digital India. The seminar trained one and all in every aspect.

Report Prepared By: Ms Vaishali Gujar, Co-ordinator of B Sc(IT)
