Department of Economics
Report on PPT competition

The Department of Economics organised PowerPoint Presentation Competition on 12/08/2015 for the students of F.Y., S.Y. and T.Y. of B. COM., B.A., BMS and B. Sc. IT. The programme was inaugurated by our principal Dr A. P. Mahajan. The principal delivered the motivational speech for students on the occasion. The purpose of the PPT competition was explained by Dr A.B. Shendre. He told that those activities would make the students all rounder and update.

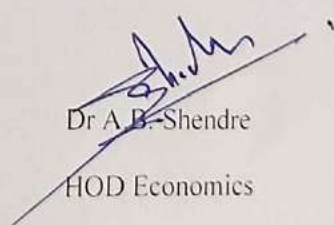

The competition was organised on the burning economic issues like Inflation, Drought in Maharashtra, Global Slowdown /Greece Crisis, Land Acquisition, Farmers' Suicide. Total 64 students participated in the competition. The competition was started at 9.00am. Each group of students was given 7 minutes' time limit for the presentation. There were 22 groups from different classes which made the show highly valuable. The students presented their topic with slides show and presented their views regarding the topic. All groups tried their best.

Dr Jyoti Parulkar, HOD Economics, Sidharth College of Arts, Commerce and Science, Mumbai and Prof. Jyoti Pohane, Assistant Professor, Pragati College, Dombivli judged the competition. The first prize went to the group of SY BMS students. They gave their medal winning presentation on Inflation in India. The second prize was won by the group of TY BBI students. They gave their presentation on Global slowdown and the third prize was shared commonly between the group of TYBA students and TY B&I students. Their presentation was on Farmers' suicide.

The programme was anchored by Dr Parmeshwar B. Gore, and Prof. Rupali Deolekar did vote of thanks. The programme was very fruitful and greatly success.

REPORT ON SEMINAR ON LAN GAMING

Resource Person : Mr. Dinesh Gupta
GetzTech Company, Pune.

Venue : Pragati College of Arts , Science & Commerce ,
Dombivli (E).

Date & Time : 27th November , 2015
9.30 A.M. to 11.30 A.M.

The aims and objectives for conducting Lan game Development seminar was to improve students capacity to understand what and how they are learning, and to review, plan and take responsibility for own learning and career choices in animation field.

A career in 3D animation involves creating 3D moving images using computer software. These images are made with the use of digital models. The types of animations that 3D animators create can vary. Some 3D animators create long feature movies, for instance. Others may create shorter animations, like short skits, which can be used for advertisements or website animations. Some 3D animators specialize in creating animations for video games, and others create special effects for live action motion pictures.

Depending on an animator's area of expertise, he might also specialize in creating different aspects of an animation. For instance, one animator may create animated people, while others will help complete the background animation, like landscapes and buildings.

A career is an important aspect of an individuals life, where the individual has to look at his/her past, present and future and match with internal careers and external careers for his/her career satisfaction. The above sessions will help the students to build their career.

B.Sc.(IT) Department

REPORT ON SEMINAR ON BIG DATA

Resource Person : Mr. Deepak Shukla
Big Data Gurukul

Venue : Pragati College of Arts , Science & Commerce ,
Dombivli (E).

Date & Time : 5th December , 2015
10.00 A.M. to 11.30 A.M.

The aims and objectives for conducting Big Data seminar was to introduce Big data is a term for data sets that are so large or complex that traditional data processing applications are inadequate. Challenges include analysis, capture, data curation, search, sharing, storage, transfer, visualization, querying and information privacy. The term often refers simply to the use of predictive analytics or certain other advanced methods to extract value from data, and seldom to a particular size of data set. Accuracy in big data may lead to more confident decision making, and better decisions can result in greater operational efficiency, cost reduction and reduced risk.

1. Understanding and Targeting Customers
2. Understanding and Optimizing Business Processes
3. Financial Trading

A career is an important aspect of an individuals life, where the individual has to look at his/her past, present and future and match with internal careers and external careers for his/her career satisfaction. The above sessions will help the students to build their career.

REPORT ON INTERDEPARTMENTAL LAN GAMING ACITVITY – COUNTER STRIKE & SUBWAY SURFER – 2016

B. Sc. (I. T.) department organized “Inter departmental Activity” which was followed by LAN Gaming – Counter Strike & Subway Surfer.

The main objective behind conducting this event was to motivate and encourage students. The event was conducted on **12th January 2016** in our college. Students are actively participated.

The students registered their name two days before this event.

Counter Strike:

Total 6 groups of 2 students were registered. The first round of the competition started at 10:30pm from which 4 groups were selected for semi final round and rest of the group were eliminated. Again from semi final 2 groups are selected for final round. Then the winners are declared.

Winners of Counter Strike

1. Umesh Sonawane
Akash Pashilkar
Sumit Shinde.

Subway Surfer:

Total 15 students were registered for this event. Two chances were given to the students. From that best result were noted and first two students were declared as winner and runner.

Winners of Subway Surfer

1. Viraj Lad
2. Swastik Kokkadan
3. Kanishka Mali

REPORT
COMMERCE DEPARTMENT

The Department of Commerce organized a Power Point Presentation competition on 16th Jan, 2016. Student from F.Y., S.Y., T.Y., B.Com, and BMS, participated in it. Ms. Jyoti Gupta, student of F.Y.B.Com welcomed Vice Principal, Dr. Kishori Bhagat, Judges Prof. Mrs. Jyoti Pohane & Prof. Mr. Manoj Makhwana & Head of Department in Commerce, Prof. Anuja Bapat.

The topic for the Power Point Presentation was "Innovative Practices"

In all there were twelve teams consisting of two members each. Different topics with different aspects related to innovative practices were taken by the students. All the groups performed well & put their best efforts in preparing and presenting their topic.

The winner teams were:

Ist Prize - Ms. Sonal Nimkar and Ms. Namrata Pahuja from S.Y.BMS

IInd Prize - Ms. Nisha Mishra and Ms. Minal Javrekar from S.Y.BMS

IIIrd Prize – Ms. Twinkle Vecra and Ms. Rashmi Nayak from T.Y.BMS

In all the competition was a successful attempt.

PPT- Competition

A PPT presentation competition was organized on by Department of Commerce on the topics **Stress Management, Oligopoly Market and Go Green** on 11/08/2016 at Pragati college of Arts & Commerce. It was the very first programme of the year. In total 08 teams participated in the competition. Judges for the programme were Prof. Mukesh Patil, Department of /English & Prof. Priyanka Dubey, Department of BMS.

The competition started with an oral welcome of Judges, Departmental faculties and student participants. Every team was given a maximum timing of 10 minutes to present. Interesting and innovative slides were prepared by the students. After all the presentations were over, judges came out with the Top 3 Winners.

The winners were:

- 1) Stress Management – F.Y.BCOM –
 - a) Sadhana Kamat
 - b) Shweta Rane
 - c) Rutuja Bhoir

- 2) Oligopoly Market – F.Y.BCOM –
 - a) Sheetal Vayadekar
 - b) Pooja Gauda
 - c) Akanksha Shinde

- 3) Go Green – S.Y.BCOM –
 - a) Jyoti Gupta
 - b) Priyanka Jha
 - c) Sneha Pandey

All the winners and participants were encouraged. The programme ended with vote of thanks.

"Seminar on 3D Animation & photography"

A seminar on 3D animation and photography was organized by CREATIVE MIND to sensitize students on the roads to a career in animation. The event witnessed over 600 participants, many of whom were school and college students who want to specialize in animation.

As India is producing many animation professionals who are presently based in reputed studios and production houses like Technicolor, Rhythm and Hues, Maya Digital, Prime focus, Red Chillies and UTV.

The speaker, Shri Sammer Bendre said, ""not everyone is cut out for academics. There are children with other skills too and it helps to recognise these talents. I am happy that we got opportunities to conduct such to help children with such skills to explore possibilities.

Animation experts Sammer Bendre and team held an interactive session on "The Art of Invisible VFX & photography".

A discussion was held on the various career opportunities available in the field of Animation & photography and how to grab them smartly.

All the participants seemed to enjoy and benefit from Sir. I am sure Sammer Bendre added loads of colours in the canvas of all the students. The seminar trained one and all in every aspect which is essential to successfully ace an interview.

A seminar on "Open Source Technologies" was organized by an Fostlipy Initiative to create awareness in students about the open source technology on 12th Aug 2017 at 11.00 am.. Open source technology is production and development philosophy of allowing end users and developers to not only see the source code of software, but modify it as well.

The future of open source in the country is bright, backed by the Indian government's Digital India initiative and the announcement of its Open Source Policy.

The speaker, Ms Sayali Yewale said, " India is no longer just a nation of diverse cultures and languages, but has also become a huge market for software and various technology offerings – ranging from operating systems and productivity tools, to desktop servers and cloud solutions."

Ms Sayali Yewale and team held an interactive session on "Open source technology and digital India"

The detail discussion was held on the various career opportunities available in the field of Open Source technology and how it can also opens up the way for entrepreneurship

All the participants seemed to enjoy and benefit from madam. I am sure Ms Sayali Yewale added changed vision of our students with the respect to digital India. The seminar trained one and all in every aspect.

"Seminar on Android Technologies"

Date: 9th December 2017

A seminar on "Seminar on Android Technologies", was organized by an Deodetech. A demo session on "Android" was organized with the aim of introducing students to the career opportunities in the field of developing apps and gaming through android on 9th December 2017 at 11.00 am. Deodetech is a industrial training institute which provides free training and placements to the students of various colleges.

The session was conducted by Ms Reshma Salunkhe & Ms Pooja Chuhan subject matter expert on Java J2FE form Deodetech. He divided the session into four introductory parameters: I: Introduction of Java concepts, II: what is android and Android Architecture, III: Android Applications Development, and Introduction of How to develop different apps and tools using android.

In the first part of this demo session, Ms Reshma Salunkhe discussed about the Java concepts which are essentials for the understanding of Android OS. Madam has also given some examples of object creation, encapsulation, inheritance, abstraction etc and linked these things with the real world. Then Madam explored the concepts of java in the second introductory part with the help of implementation of packages in java and the classes which are in build in java. After that, Madam gave the introduction about android operating system and its history. Madam explained the constraints of the mobile application as compared to the desktop application like orientation, processing power, Events calls, platform versions, etc. parameters etc. Basically these are the essentials which we have to be keep in mind before developing a mobile application. The web sites which can help the students for developing apps using android are developer.android.com etc. Then Madam went on to explain about IDE for develop the application and started the work on Eclipse IDE. He explained various things in IDE and then explained a small application for the students' knowledge.

Students asked many questions on application development and their future scope in mobile application. It was an extremely informative and an interactive session where students acquired enormous basic knowledge on Android.

The students were very keen for this seminar and they learned a lot about Android. This lecture will certainly help them understand their subject in a new perspective.

Sub: - Introduction Letter

Dear Sir / Madam,

We are a software training and Placement organization based in Mumbai. With more than 10 years of training expertise, a highly experienced faculty and a culture of excellence, we provide our students with intensive training in software which equips them for the challenges of the global economy.

We offer training courses in Oracle, Java, .Net, Software Testing and Android. In today's extremely competitive world, one can survive only based on one's skill - both technical and soft skills. What sets us apart is our training style which combines world class theoretical education based on internationally certified curriculum along with ample opportunities for practical exposure on live projects. This ensures that our students obtain specialized skills so as to enable them to take up challenging roles in today's fast changing software world.

Our specialties are

- Small batch size, flexible batch timings and personal attention
- Internationally certified and Industry oriented syllabus updated on continuous basis
- Experienced and certified faculty
- Extensive placement Assistance
- Guidance for international certifications
- Focus on developing live projects
- Interactive multimedia sessions

In order impart latest technology knowledge to students we plan to conduct workshops on following topics:

- **Career in Android**
- **Future in Python**
- **Java Technology**
- **Career in Software Testing**
- **Project to Placement**

Each workshop will be of duration of 2 hours and free. We request you to give us an opportunity for the same.

Thanking You,
Yours faithfully

Report of National Level Online Workshop on “Robotics with Sensors, Arduino + basic Coding from Scratch”.

Resource Person : Mr. Leo Linus.
Elctro Junior Team
Organize By : Pragati College Of Arts and Commerce, Dombivli East
Date and Time : 30th & 31st May 2020.
4:00 PM to 5:30 PM.

National Level online workshop was held on 30th & 31st May 2020.

The presenter explained about the current requirement of Robotics and AI in the market and then start with the basics.

The specific objectives of the workshop are as:

1. Learn and understand the basic environment of Electronics, Arduino, Sensors from scratch.
2. Participants can able to test the circuits without having the components in real.
3. Each and every topic practically performed by participants.
4. Participants build a mini project.

The presenter discussed each and every point clearly and explain practical on online app.

The participants are able to

1. Understand all the electronic components and Arduino.
2. Performed many circuits using different sensors.
3. Build a mini project based on Arduino.

In day to day life as IT is an essential part, similarly Basics of Electronics and Arduino is also essential to have knowledge of many things that we are using in our daily routine like smart watch, smart phone, etc.

Through this workshop student are able to understand different sensors and their use, different circuits etc. This workshop is very helpful to students to basics of Arduino and its coding through online app.

**REPORT ON WEBINAR "OUTCAST THE COMPETITION
FOR SUCCESS AT WORKPLACE"**

Date:- 30.5.2020

Time:- 10:30 to 12:30

No. Of Participants: 99

Department of management studies in association with "MachInfini Institute" had organised a session on "Outcast the Competition for Success at Workplace".

In this session the resource person **Mr. Johnson** guided us about outcast the competition & how to present oneself at workplace in competitive world. More than 200 participants were there from various colleges and 99 participants from Pragati College took the advantage of the same.

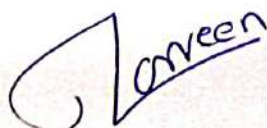

This session was successfully conducted on online platform "Google Meet" & was highly encouraged by all the participants & it ended by proposing formal vote of thanks.

The Department of Bachelor of Information Technology of T.Z.A.S.P. Mandal's ,Pragati College, Dombivli proudly conducted One day National Webinar on Artificial Intelligence in collaboration with FOSLIPY C. S. PVT LTD. and was organized on 2nd June, 2020 (Tuesday) to give students a technology update and to prepare them for industry readiness.

The webinar was led by Mr. Achal Vat who is working in Capgemini as Cloud Expert. He is in the development, deployment and maintenance of AI chatbots on platforms like MS Azure, AWS Lex, Alexa, and IBM Watson's assistant.

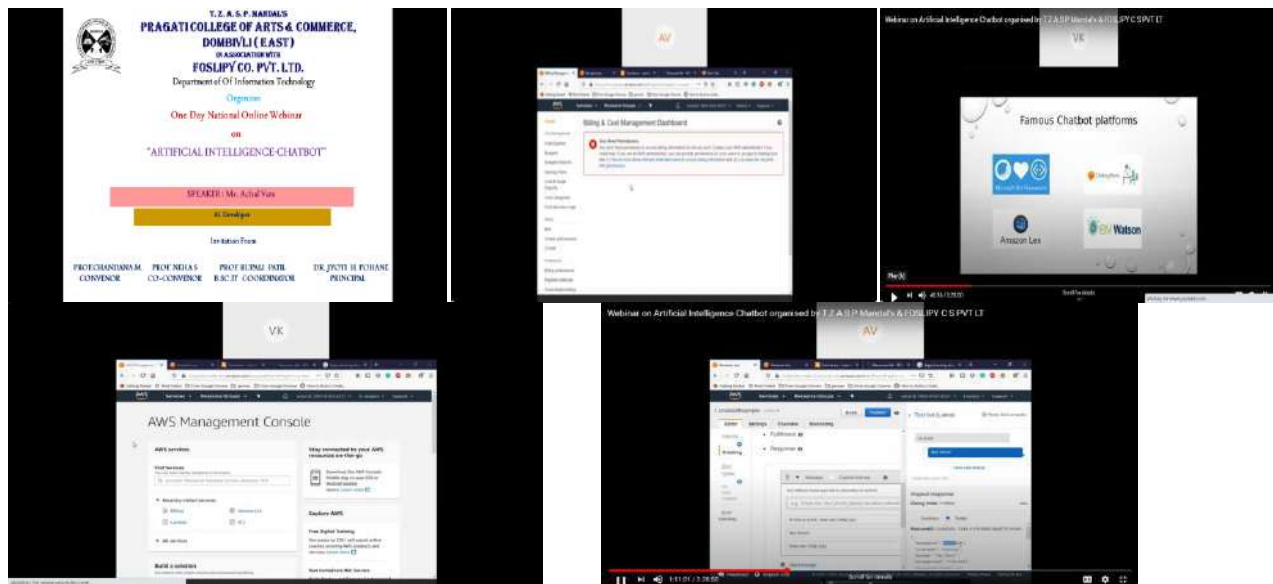

Webinar saw a participation from 100+ students who all were truly satisfied once the webinar got over. Participants were from different backgrounds like BSc. Computer Science and B.Tech. etc.

Welcome note was by Bsc.IT Co-ordinator Prof. Rupali Patil and BSCIT Department teacher-in-charge of Webinar Prof. Chandana Malavade marked the beginning of the webinar.

Mr. Achal Vat, after being introduced started binding the audience by introducing Artificial Intelligence while simultaneously engaging with participants query. Participants were taken on an informative ride by the speaker that revolved around AI and Alexa in specific. Once the brief introduction was over our speaker began with detailed knowledge on the webinar topic.

Key Highlights of Webinar :

- Introduction to AI Chatbots
- Introduction to AWS LEX (Alexa NLP Engine) and Hands-On.
- Building basic NLP with Intents, Entities, and Dialog Flow for conversation in LEX.
- Hands-On with AWS Lambda and Serverless.
- Creating a Basic Watson Assistant with Intents, Entities and Conversation Flow.
- Hands-On on LEX, ALEXA, AND IBM Watson Assistant.

Over all the session was very informative with a lot of valuable offerings which helped everyone imbibe a lot of knowledge about Artificial Intelligence.

On this note speaker concluded his talk and BSCIT Department teacher-in-charge of Webinar Prof. Neha Singh ended the session with a vote of thanks. Webinar was appreciated by all the participants that got reflected with greetings in the chat box. E-certificates were also distributed among the participants as a vote of appreciation.
